

The Pastoral Ecosystems and Valorization of Spontaneous Plants
 and Associated Microorganisms Laboratory
 (LR16IRA03) at the Arid Regions Institute of Medenine,
 organizes

The First International Seminar on
Rangelands and Pastoralism :
Reality and Challenges for
Sustainability

RanPasS1

Djerba, Tunisia, 2-5 April 2026

PROGRAM

BOOK OF ABSTRACTS

PROGRAM RANPASS1

Our Website

**The Arid Regions Institute of Medenine
Laboratory of Rangeland Ecosystems and Valorization of Spontaneous Plants
and Associated Microorganisms (LR16IRA03)
and Partners**

organize

**The First International Seminar on
“Rangelands and Pastoralism: Reality and Challenges for
Sustainability (RanPasS1)”**

The First International Seminar on Rangelands and Pastoralism: Reality and Challenges for Sustainability (RanPasS1)

Djerba - Tunisia: April 2-5, 2026

RanPasS1: The program	
KS: Keynote Speaker, S: Speaker, P: Poster	
Day 0, Wednesday, April 01, 2026	
14:00	Organizers/Check-in
Day 1, Thursday, April 02, 2026	
08:00-9:00	Attendee Arrival/Registration/Check-in
9:00-11:30	Opening Session: Official Statements
	Program Introduction (LR16IRA03)
	Research & innovation in rangelands: the Tunisian case study (Prof. Mohamed Tarhouni)
11:30-12:00	Coffee Break

1

The First International Seminar on Rangelands and Pastoralism: Reality and Challenges for Sustainability (RanPasS1)

Djerba - Tunisia: April 2-5, 2026

Topic 1: Ecological dynamics of arid rangelands: biodiversity, management techniques, ecosystem functioning, climate change impacts			
President: Prof. Igshaan Samuel			Rapporteurs : Farah Ben Salem ; Abderrazak Tlili
12:00-12:10	Editor In-Chief	Prof. Mohamed Ksibi	Brief presentation of Euro-Mediterranean Journal for Environmental Integration
12:10-13:00 (40 min+ 10 min)	KS-1	Prof. Azaiez Ouled Belgacem	Arid Rangeland Ecosystems Under Pressure: Biodiversity, Management Practices, and Climate Change Implications
13:00-13:15	KS	Prof. Meshal Abdullah Alharbi	KSA Experience on rangeland management and biodiversity conservation
13:15-13:30	S1	Manam Wafi Barani Saaed	Rangeland Condition in the Southern El-Jabal El-Akhdar Region, Libya
13:30-13:45	S2	Jamila Msadek	Seasonal grazing: an appropriate management strategy to maintain arid mountain rangelands and ensure their sustainability

The First International Seminar on Rangelands and Pastoralism: Reality and Challenges for Sustainability (RanPasS1)

Djerba - Tunisia: April 2-5, 2026

13:45-15:00	Lunch Break		
15:00-15:15	S3	Azaiez Ouled Belgacem	Enhancing Rangeland Resilience under Mediterranean Semi-Arid Conditions: The Ecological Role of <i>Sulla</i> species in Suppressing <i>Stipellula capensis</i>
15:15-15:30	S4	Rania Mechergui	Breaking Seed Dormancy and Environmental Stress Tolerance in <i>Calligonum azel</i> in arid Tunisian ecosystem
15:30-15:45	S5	Djamila Zammouri	<i>Ex-situ</i> conservation of Tunisian Flora in Arid and Desert Areas in a Changing Environment
15:45-16:00	S6	Mansour Secrafi	Resilience and Vulnerability of Key Pastoral Grasses Under Future Climate Scenarios: Implications for Arid Rangeland Sustainability
16:00-16:15	S7	Maher Mahmoudi	Ecological Plasticity and Drought Adaptation of <i>Polygonum equisetiforme</i> as a Functional Indicator of Climate Change in Tunisian Arid Rangelands
16:15-16:30	S8	Nesrine Harboub	Harnessing <i>Salicornia</i> and <i>Sarcocornia</i> for Sustainable Development in Arid and Coastal Regions

The First International Seminar on Rangelands and Pastoralism: Reality and Challenges for Sustainability (RanPasS1)

Djerba - Tunisia: April 2-5, 2026

Posters session		
P1	Ines Romdhane	Structural and Functional Degradation of Rested Communal Rangelands: the case of Dhahar Beni Khedache in Southern Tunisia
P2	Amel Ennajah	Characterization of the Drought Stress Response of a Spontaneous Pasture Legume (<i>Cytisus villosus</i>) for Conservation Management
P3	Oumaima Mahir	New Perspectives on Breeding and Feeding Systems of Sheep in the Beni Mathar Steppe, high plateaus of eastern Morocco

The First International Seminar on Rangelands and Pastoralism: Reality and Challenges for Sustainability (RanPasS1)

Djerba - Tunisia: April 2-5, 2026

Day 2, Friday, April 03, 2026			
Topic 2 <i>Innovations for rangeland monitoring and sustainable management: technological innovative tools (GIS, RS, AI, Mobile apps, etc.), Ecological indicators, Pastoral plants, Micro-organisms</i>			
President: Mohamed Ouessar		Rapporteurs : Maher Gtari ; Imed Sbissi	
8:00-9:50 (40 min+ 10 min)	KS-2	Dr. Essifi Bouajila	A Machine Learning-Driven, Cloud-Based Framework for Land Degradation Neutrality (LDN) Assessment in Tunisia's Rangelands
9:50-10:05	S9	Fathia Jarray	Remote sensing-based assessment of land degradation and restoration in a semi-arid Mediterranean region
10:05-10:20	S10	Kaoutar Aboukhalid	Indicator species for degradation and their Seasonal Nutritive Role as Alternative Forage in Eastern Morocco
10:20-10:35	S11	Minmin Yu	From Global Surveys to Local Decisions: A Flexible Framework for Rangeland Degradation Monitoring

5

The First International Seminar on Rangelands and Pastoralism: Reality and Challenges for Sustainability (RanPasS1)

Djerba - Tunisia: April 2-5, 2026

10:35-10:50	S12	Abderrazak Tlili	Analysis of Land Degradation Under Different Grazing Regimes in semi-Arid TUNISIA: A 30-year NDVI Trend Study in Oueslatia
10:50-11:05	S13	Svetlana Lyashenko	Resource Potential, Biomass Production, and Ecological Significance of <i>Salsola iberica</i> in the Coastal Lowlands of Dagestan
11:05-11:30	Coffee Break/ Poster Session		
11:30-11:50	S14	Prof. Ciro Isidoro	Health Benefits from plants and micro-organisms
11:50-12:05	S15	Mustapha Ennajeh	Plasticity in the xylem structure and function in two saltbush shrub species (<i>Atriplex</i>) from differing Mediterranean Type Climate microhabitats
12:05-12:20	S16	Amal Ben Hmed	Aquaponics system: a sustainable, circular production approach
12:20-12:35	S17	Ichrak Essid	FT-IR Profiling Reveals Cultivation-Driven Cadmium-Chelating

The First International Seminar on Rangelands and Pastoralism: Reality and Challenges for Sustainability (RanPasS1)

Djerba - Tunisia: April 2-5, 2026

11:05-11:30	Posters Session		
	P4	Hana Dali	<i>Frankia incanae</i> sp. nov., a new nitrogen-fixing and nodulating actinobacterium isolated from <i>Alnus incana</i>
	P5	Rihab Hamra	Phylogenomic reassessment of the family <i>Rhodanobacteraceae</i> resolves genus-level polyphyly and supports the proposal of eight novel genera
	P6	Kaoutar Aboukhalid	Characterization of Major Feed Resources Used in Sheep Production Systems in Eastern Morocco, Using Near-Infrared Spectroscopy (NIRS)
	P7	Tesnim Bouzidi	Insights into the probiotic Potential and Genomic Features of <i>Streptomyces</i> sp. BMG 50.12 Isolated from Tunisian Desert Soil
	P8	Kaoutar Aboukhalid	Effect of season on the nutritional value of some pastoral species in Morocco
	P9	Roukaya Ben Gaied	Deciphering Quorum Sensing Dynamics in Legume Root Microbiomes: Effect on Symbiotic efficiency and Sustainable nitrogen fixation
	P10	Zaineb Hayder	Ecophysiological plasticity and salinity adaptation of <i>Sarcocornia alpini</i> under controlled conditions

7

The First International Seminar on Rangelands and Pastoralism: Reality and Challenges for Sustainability (RanPasS1)

Djerba - Tunisia: April 2-5, 2026

	P11	Naima Bennour	<i>Ephedra alata</i> in Southern Tunisia: Traditional Uses and Nutritional Value as a Multifunctional Rangeland Resource
	P12	Naima Bennour	<i>Moringa oleifera</i> as a Multifunctional Resource for Sustainable Rangelands in Southern Tunisia
	P13	Naima Chouikhi	Phytochemical Composition, Bioactive Compound Content, and Antioxidant Activity of <i>Argania spinosa</i> Leaves from Tunisia and Algeria
	P14	Fida Mzoughi	Exploring the Natural Extract of <i>Peganum harmala</i> for the Sustainable Management of the Date Palm Mite
	P15	Echrak Boubaker	Halophyte-Associated Bacteria as Promising Bio-inoculants for Salinity-Resilient Agriculture in Arid Regions
12:35-15:00	Lunch break		

The First International Seminar on Rangelands and Pastoralism: Reality and Challenges for Sustainability (RanPasS1)

Djerba - Tunisia: April 2-5, 2026

Topic 3 <i>Livestock, Agropastoralism, Agroecology and Ecosystem</i> <i>Services to optimize rangeland valorization</i>			
President: Raoudha Abdellaoui		Rapporteurs : Fayçal Boughalleb ; Hédi Mighri	
15:00-15:50 (40min+ 10 min)	KS-3	Prof. Igshaan Samuel	More than livestock: Arid rangelands as multifunctional landscapes for increased societal benefit
15:50-16:05	S18	Salma Sai Kachout	Impact of Intercropping on Weed Control, Soil Fertility, and Water Status in Tunisian Olive Orchards
16:05-16:20	S19	Ilyes Hadbaoui	Optimizing rangeland valorization through Sustainable Fencing Management in Algerian Steppes: Balancing livestock production and Ecosystem Services
16:20-16:35	S20	Jamila Msadek	Ecosystem services of arid mountain rangelands in southern Tunisia: implications for sustainable pastoral management
16:35-16:50	S21	Hamza Bouras	Increase Biomass Production and Salinity Tolerance of Blue Panicum (<i>Panicum antidotale</i> Retz.) as an alternative forage in the Salt-Affected Soils of Arid Regions

The First International Seminar on Rangelands and Pastoralism: Reality and Challenges for Sustainability (RanPasS1)

Djerba - Tunisia: April 2-5, 2026

16:50-17:05	S22	Meriem Zouaoui	<i>Cypress Canker in the context of Agroecology</i>
17:05-17:20	S23	Musa Usman Ndamba	Pastoralism and Agroecological Practices for Climate Action: Indigenous Solutions for Rangeland Restoration and Sustainable Food Systems in Cameroon
17:20-17:35	S24	Abdelmajid El Hamrouni	L'agro-sylvo-pastoralisme face aux effets du changement climatique et de l'anthropisation en Tunisie
17:35-17:50	S25	Oumayma Cheffi	Adaptation traits of local livestock breeds and the resilience of their production systems to climate change: the case of Siroua sheep, Drâa goats and Tidili cattle
17:50-18:05	S26	Aziza Zoghalmi	Harnessing local genetic resources: developing improved forage legume varieties to withstand climate change and support livestock: From collection to release
18:05-18:20	S27	Mabrouk Seddik	Characterization of risk pastures contributing to the occurrence of Krafft's disease in dromedaries in southern Tunisia
18:20-18:35	S28	Mandeep Singh Azad	Counting the Uncounted: Stastical Evidence on Livestock Healthcare and Veterinary Services among Migratory Tribes
18:35-18:50	S29	Michael Adedotun Oke	Challenges and Opportunities in Abattoir Operations: A Case Study from Gwagwalada, Abuja, Nigeria

10

The First International Seminar on Rangelands and Pastoralism: Reality and Challenges for Sustainability (RanPasS1)

Djerba - Tunisia: April 2-5, 2026

Posters Session			
P16	Hajer Eljeni	Mineral and Phytochemical Characterization of Annual Plants from Southern Tunisia as Sustainable Livestock Feed	
P17	Samah Maaloul	Forage potential and nutritional characterization of <i>Silybum marianum</i> and <i>Silybum eburneum</i> organs in Tunisian rangeland ecosystems	
P18	Ahlem Atoui	Pastoral Farming Systems in Arid Regions: Typology of Small Ruminant Farms in Southern Tunisia	
P19	Meriem Imelhayene	Camels in Ecological Interactions and the Enhancement of Ecosystem Resilience in Rangelands	
P20	Asma Cherif	Arid Rangeland Flora as a Source of Sustainable Botanical Pesticides for Date Palms	
P21	Tahar Tlig	Phytotoxic potential of <i>Eucalyptus globulus</i> Labill. leaves and litter against weeds growing spontaneously from the soil seed bank	
P22	Habib Lamourou	Stability and maturity indexes for the organic fraction in compost	

11

The First International Seminar on Rangelands and Pastoralism: Reality and Challenges for Sustainability (RanPasS1)

Djerba - Tunisia: April 2-5, 2026

Day 3, Saturday, April 04, 2026			
Topics 4 + 5 <i>Local knowledge and pastoral communities practices: Traditional practices versus modern systems/managements, local resilience, pastoral mobility, community governance</i> + <i>Integrated approaches and multi-stakeholder partnerships: the role of research, women and young peoples in pastoral management, NGOs, governments and international institutions</i>			
President : Mohamed Jaouad		Rapporteurs : Mondher Fetoui ; Aziza Zoghlami	
8:00-8:50 (40 min+ 10 min)	KS-4	Prof. Aymen Frija	Beyond Rangelands: Integrating Traditional Knowledge and Territorial Intelligence for Resilient Pastoral Governance in South Tunisia
8:50-9:05	S30	Mabrouk Laâbar	The rise and fall of pastoral commons: insights from Southern Tunisia

12

The First International Seminar on Rangelands and Pastoralism: Reality and Challenges for Sustainability (RanPasS1)

Djerba - Tunisia: April 2-5, 2026

9:05-9:20	S31	Sinoyolo Kokwe	Ecological dependencies and socio-economic contributions linked to pastoralism in southern Africa
9:20-9:35	S32	Michael Adedotun Oke	Economic Behavior and Livestock Production in the Forestry Zones of Abuja: A Socio-Ecological and Technical Analysis
9:35-9:50	S33	Ceren Kazancı Oruç	Braided Resilience: The Keystone Role of Oaks and Conifers in Sustaining the Sarıkeçili Social-Ecological Continuum
9:50-10:05	S34	Mustapha Ibnelbachyr	Role of farmers' practices in the management of local livestock breeds on rangelands and their resilience to climate change: the case of Siroua sheep and Tidili cattle
10:05-10:20	S35	Clement Cupido	Integrating different knowledge systems to achieve resilience on pastoral commons in the drylands of South Africa
10:20-10:35	S36	Fatih Tatari	Governing Pastures: Commoning, Mobility, and Co-Creation in Northeastern Turkey
10:35-10:50	S37	Michael Adedotun Oke	Transforming Pastoral Mindsets: Reconciling Traditional Grazing Beliefs with Sustainable Land Governance in Abuja, Nigeria
10:50-11:05	S38	Chrifa Eljerou	Valorisation des bio-ressources végétales et économie circulaire en zones arides tunisiennes : rôle stratégique de l'accompagnement technique
11:05-11:30	Coffee Break		

13

The First International Seminar on Rangelands and Pastoralism: Reality and Challenges for Sustainability (RanPasS1)

Djerba - Tunisia: April 2-5, 2026

11:30-11:45	S39	Nasr Raggad	Individual Grazing Strategies and the Commons Dilemma: Evidence from Collective Rangelands in Southern Tunisia
11:45-12:00	S40	Tilen Ochieng Ododa	Digital Stewardship for Sustainable Rangelands: Leveraging AfriScout to Support Pastoralist Decision-Making in East Africa
12:00-12:15	S41	Aicha Laroussi	Typology of Pastoral Farming Systems in Arid Ecosystems: The Role of Labor Handling and Management Strategies in the Tataouine Governorate (Southern Tunisia)
12:15-12:30	S42	Michael Adedotun Oke	Navigating the Crisis: A Resilience-Based Framework for Sustainable Rangeland Management and Pastoralist Security in Nigeria
12:30-12:45	S43	Susan Achayo	Empowering the Custodians: The Vital Role of Women and Youth in Sustainable Rangeland Management
Discussion & Outcomes			
Lunch + Check out			
Free Afternoon for attendees participating in field trip			
Day 4, Sunday, April 05, 2026			
Field Trip: Departure at 7:00 am from the hotel			

14
